

Pristinely pure
vodka inspired
by the unbridled
power of nature.

True element.
Wild pleasure.

BERINGOV

ORIGINAL

PURE VODKA

BERINGOV is a first class vodka inspired by the unbridled power of water. It owes its name to the storm-battered the Bering Strait, where the icy waters of the Arctic Ocean meet the Pacific. Luxury grade spirit made of a.i. our own grain was used for its production. The production process involves six-time distillation and the unique absorption filtration to which the vodka owes its exceptional purity. The taste is evocative of the forces of nature – it is noble, clean, pristine while at the same time silky and intensively refreshing.
